DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Ueno (U.S. 5,299,936). Please refer to paragraph 2 of the office action dated October 31, 2005.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 2-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ueno. Please refer to paragraph 4 of the above cited office action.

Response to Arguments

5. Applicant's arguments filed 01/10/2006 have been fully considered but they are not persuasive. Applicant is reminded that claims are read in their broadest reasonable light. The claim limitations recite that the layer is formed from a material that is non-deformable. The individual balls meet this requirement. As for the protrusions, note in column 7, lines 3-5 that the elevating member has a softening point above 100° C, much like the protrusion claimed by Applicant. In as much as Applicant's protrusions are non-deformable based on the material having a softening point above 100° C, the protrusions of Ueno are also non-deformable, as in both the prior art as well as the

Art Unit: 3764

current invention, deformation will occur when the softening point is reached. As such, absent further limitation, Ueno meets the limitations as claimed. Furthermore, as previously discussed, the method steps as claimed are performed during normal use of the device.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
